

## **Coromatic Group Coromatic Group Acquires Skandinaviska Kraftprodukter AB**

- *Strengthens its offering within reliable power supply*

Coromatic Group, the Nordic leader in IT security and power continuity, has acquired Skandinaviska Kraftprodukter AB in Halmstad, Sweden. Skandinaviska Kraftprodukter is the industry leader in emergency power solutions with a turnover of more than 50 million SEK. Through the acquisition, Coromatic Group further strengthens its position as the Nordic market leader for full service solutions for physical IT security and reliable power supply.

Coromatic Group aims to secure the business of their customers through solutions and specialist services within IT continuity. The Group's offering includes the delivery of fully equipped data centers, power supply and strategic consultancy as well as support and service. With a long and proven experience of emergency power, the acquisition of Skandinaviska Kraftprodukter enables Coromatic Group to further broaden its offering and open up for new comprehensive projects as the resources within power supply are strengthened.

“The acquisition gives us further specialist skills and resources to offer full service solutions and broaden our offering within reliable power supply from a Nordic perspective. The acquisition is a strategic investment which will benefit both our customers and all the companies within the Group”, said Maths Waxin, CEO, Coromatic Group.

Coromatic Group has worked in close partnership with Skandinaviska Kraftprodukter for over ten years and the company has been a supplier to several of Coromatic's projects in which emergency power has been an element. Following the acquisition, Skandinaviska Kraftprodukter AB will continue operating as an independent company within Coromatic Group and it keeps its residence in Halmstad, Sweden.

“We see great opportunities from joining Coromatic Group. They have a drive and mode of operating that we appreciate and look forward to becoming part of. The timing of the acquisition is just right and we will benefit from each other, both when it comes to an increased geographical scope and to access to additional competent resources. This gives us an opportunity to take part in larger projects,” said Christer Rosenberg, MD of Skandinaviska Kraftprodukter AB.

Through the acquisition of Skandinaviska Kraftprodukter AB, Coromatic Group will grow from 200 to 223 employees.
